## HIPAA PERMITS DISCLOSURE OF POST TO OTHER HEALTH CARE PROFESSIONALS AS NECESSARY

### Directions for Health Care Professionals

#### **Completing POST**

Must be completed by a health care professional based on patient preferences, patient best interest, and medical indications.

To be valid, POST must be signed by a physician or at discharge from a hospital or Long Term Care facility by a Nurse Practitioner (NP), Clinical Nurse Specialist (CNS), or Physician Assistant (PA). Verbal orders are acceptable with follow-up signature by physician in accordance with facility/community policy.

Person with DNR in effect at time of discharge must have POST completed by health care facility prior to discharge and copy of POST provided to qualified medical emergency personnel.

Photocopies/faxes of signed POST forms are legal and valid.

#### **Using POST**

Any incomplete section of POST implies full treatment for that section.

No defibrillator (including AEDs) should be used on a person who has chosen “Do Not Attempt Resuscitation.”

Oral fluids and nutrition must always be offered if medically feasible.

When comfort cannot be achieved in the current setting, the person, including someone with “Comfort Measures Only,” should be transferred to a setting able to provide comfort (e.g., treatment of a hip fracture).

IV medication to enhance comfort may be appropriate for a person who has chosen “Comfort Measures Only.”

Treatment of dehydration is a measure which prolongs life. A person who desires IV fluids should indicate “Limited Interventions” or “Full Treatment.”

A person with capacity, or the Health Care Agent or Surrogate of a person without capacity, can request alternative treatment.

#### **Reviewing POST**

This POST should be reviewed if:

- (1) The patient is transferred from one care setting or care level to another, or
- (2) There is a substantial change in the patient’s health status, or
- (3) The patient’s treatment preferences change.

Draw line through sections A through E and write “VOID” in large letters if POST is replaced or becomes invalid.
