Founded in 1947, the Tennessee Health Care Association (THCA) is dedicated to maintaining the high standards of licensed long-term care facilities through education, advocacy and leadership.

THCA develops programs that advance care quality and strives to improve the public's understanding of long-term care's role in the health care system. In 2009, THCA launched the Tennessee Center for Assisted Living (TNCAL), a separate organization under the THCA umbrella that is dedicated to the interests of Tennessee's assisted care living facilities. THCA/TNCAL serves 94% of Tennessee's skilled nursing facilities and over 100 assisted care living facilities.
